DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 – 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,456,234 (Johnson) in view of U.S. Patent Application No. 2004/0103158 (Vella).

With respect to claims 1 and 8, note, the receiving data processing system (RDPS) and the Summary of the Invention, the receiving of a public text message (Amber Alert; Col. 3, lines 51 – 62, with respect to header and data portions, see Figs. 7A – 9D. Johnson teaches the claimed limitations except the notification of receipt or reply message. With regard to sending a reply message to the sender of a text message note that Vella teaches such at Paragraphs 0068 and 0079 – 0081. It would have been obvious to one of ordinary skill in the art to have incorporated a means of notifying a sender of receipt of a message as taught by Vella into the Johnson device in order that the sender knows of delivery completion.

With respect to claims 2 – 5 and 9 – 12, note Figs. 7A – 9D of Johnson.

With respect to claims 6 – 7 and 13 - 14 note Col. 3, lines 37 – 40 and Col. 13, line 16 – Col. 14, line 35 of Johnson.

Response to Arguments

Applicant's arguments with respect to claims 1 - 14 have been considered but are moot in view of the new ground(s) of rejection.
